Description of the activity:					

The pupils did a brainstorming on the meaning of the word 'milieu' or environment. They made mind maps that are shown to the other pupils and staff of the school in a permanent project exhibition at school. This week was the 'Belgian week for the reduction of waste': an ideal moment to launch our project ideas to the big public!

How to tackle waste problems? 5 important steps!

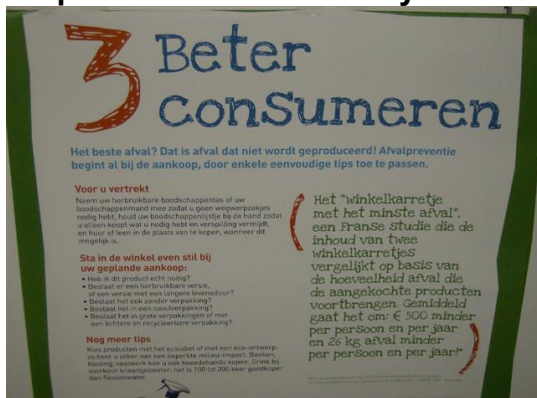

Step 1: to be aware of the fact: there is too much waste!

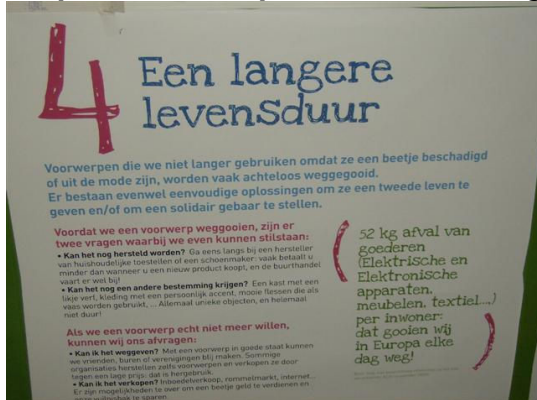

Step 2: we need better ways to make consumer goods.

Step 3: we need better ways to consume these goods.

Step 4: we need products with longer life cycles!

Step 5: we need decrease the amount of waste.

Our permanent exhibition @ school.
