Description of the activity: Recycling art workshops				

Students of our junior high school (classes 2a and 2b) took part in recycling art workshops. They made various musical instruments and flower arrangements out of different recyclable products (such as plastic bottles, cans and caps).

Pupils enjoyed the activity which gave them a lot of fun. Young artists proved to be extremely creative when preparing and finishing the project.

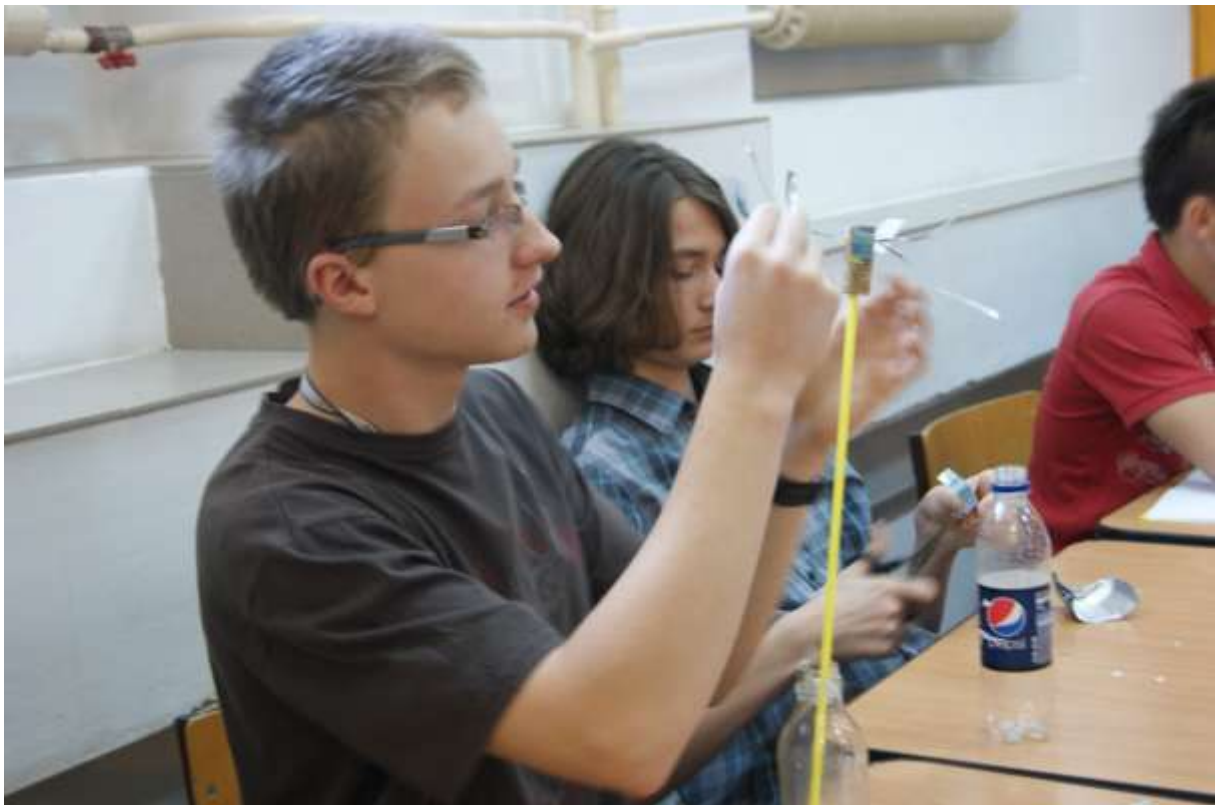

The recycled artefacts will be exhibited in our school. Both teachers and students will have a chance to admire our young artists' creativity and inventiveness.

At the same time, we will have an opportunity to realize that recycled products can be re-used even for artistic purposes.
