Description of the activity: International Earth Day					

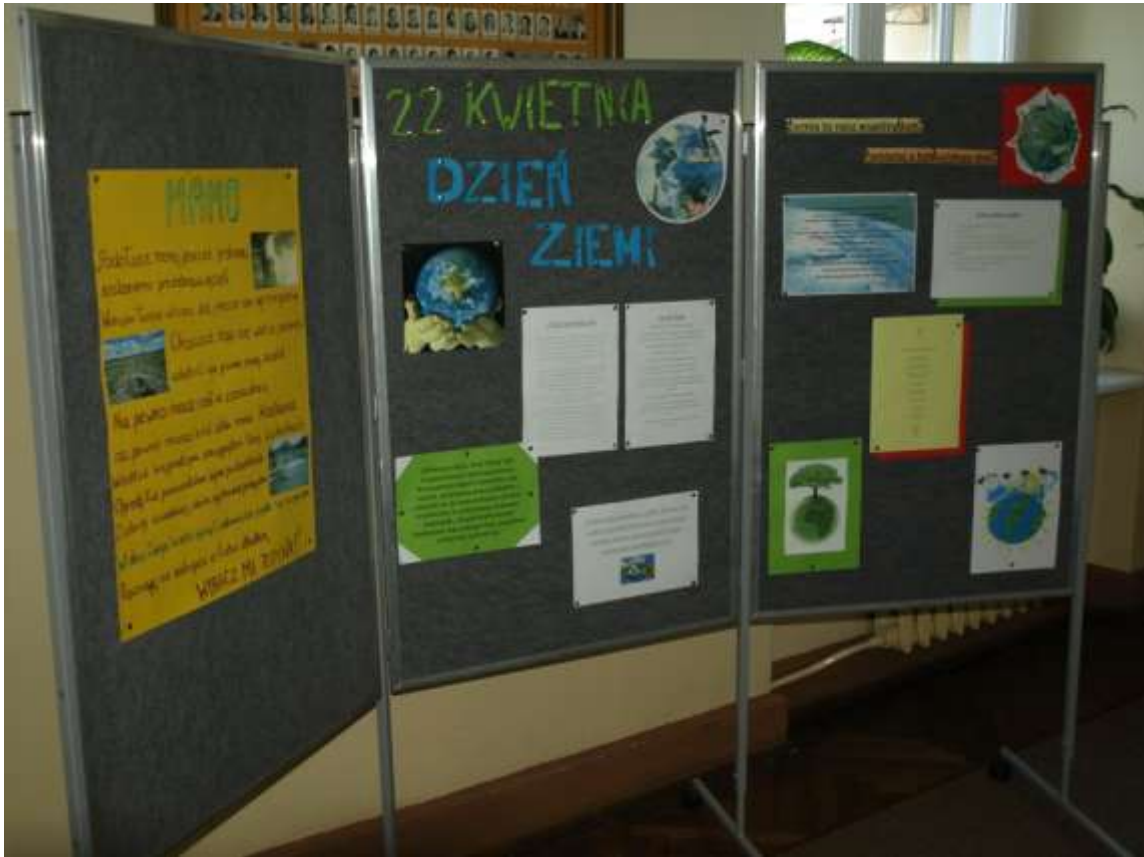

The celebrations of the international Earth Day 2011 are connected with the International Year of the Forest announced by the United Nations. The leading subject is the wood and this year's motto is "Forest just so close to us".

For promotion purposes linked with the Year of the Forest, our students organized a forest cleaning campaign. The students of class 1e and 2e with their class tutors, supported by a forester cleared the local forest. It ended up with significant benefits. The participants collected several plastic bags filled with rubbish. Most of the waste were plastic bottles which normally wouldn't decompose. All the things were transported then to the local waste dump.

Although the forest area is not vast, still it is inhabited by the deer, fox, wild boar, hedgehog and pine marten.

The Day of the Earth celebrated at our school is a chance to introduce numerous problems concerning contemporary ecology to our students, widespread use of clean technologies and nature education.
